Step 3: Saving Your Work

Updating a Forecast Project · https://dev.forecastpro.com/documentation/forecast-pro-trac/updating-a-forecast-project-fp100-and-extended/100ext-step-three-saving-your-work/

If this was a real forecasting session, we would now review the new forecasts, adjust the forecasting models as appropriate, add any needed overrides, and share the project with others until we establish the final July forecast.

Once we've established the final forecast, we would save our final project file for the July forecast and save any desired output files.

Exit Forecast Pro.

This concludes the *Updating a Forecast Project* tutorial.
